### VOLUME 1: PROGRESS IN MEDICINE 2016

#### SECTION 1: DIABETES

1. Can We Change the Natural History of Type 2 Diabetes Mellitus?  
   V Mohan, A Amutha  
   Page: 3

2. Diabetes is a Vasculopathy: Not Lone Endocrinopathy  
   Rajeev Chawla  
   Page: 8

3. Heart Disease in Diabetes: Indian Pattern  
   YP Munjal, Bhagyasri Pandit, Anmol S Pannu  
   Page: 14

4. Childhood Onset Diabetes  
   Ranjit Unnikrishnan  
   Page: 18

5. Brittle Diabetes: Current Approach  
   SV Madhu, Sundaram Gopalakrishnan  
   Page: 21

6. Diabetes Educators: A New Paradigm for Management of Indian Diabetics  
   Shilpa Joshi  
   Page: 24

7. Home Monitoring in Diabetes  
   RK Goyal  
   Page: 27

8. Going Beyond HbA1c: Ambulatory Glucose Profiling  
   Prasanna Kumar KM  
   Page: 29

9. Diet and Diabetes  
   Pramod K Sinha, Mandip S Bhangoo  
   Page: 32

10. Sulfonylureas: A Reappraisal of their use in Clinical Care  
    Krishna C Seshadri  
    Page: 37

11. Role of Newer Antidiabetic Agents in Indian Diabetic Patients  
    Anuj Maheshwari  
    Page: 40

12. Glycemic Variability and Role of Alpha-glucosidase Inhibitors  
    Banshi Saboo, Ravinder Garg, Geeti Puri Arora  
    Page: 45

13. Dipeptidyl Peptidase-4 Inhibitors  
    Ajay Kumar  
    Page: 49

14. Newer Hypoglycemic Agents for Type 2 Diabetes  
    Harbir K Rai, Rajinder S Gupta, Simar Rajan Singh  
    Page: 52

15. When to Initiate and how to Intensify Insulin Therapy in Type 2 Diabetes  
    Sanjeev Phatak  
    Page: 56

16. Peripheral Neuropathy in Diabetes  
    R Rajasekar, M Nataraj  
    Page: 62

17. Diabetic Foot  
    Vijay Viswanathan, Anitha Rani  
    Page: 65

18. Management of Hyperglycemia in Critical Care Setting  
    Apurba Mukherjee, Giridhara Kar  
    Page: 67

19. Prevalence of Noncommunicable Diseases in India: Results from the ICMR—INDIAB Study (Phase I)  
    Ranjit Mohan Anjana, Tanvir Kaur, Rajendra Pradeepa  
    Page: 72
20. Mobile Technologies in Managing Diabetes
Viral N Shah, Narenderpal Jain

21. Evolution of Path-breaking Technologies in Diabetes
Jothydev Kesavadev

22. Saroglitazar, a Novel Agent: Role in Diabetic Dyslipidemia
Bipin Kumar Sethi, V Sri Nagesh, Ayesha Vaseen, Jayant Kelwade

23. Bionic Pancreas
Shalini Jaggi, Rajeer Chowla, Acsha Chowla

SECTION 2

24. Laboratory Investigations and Interpretations in Rheumatic Diseases
Paramjeet Singh, Ghan Shyam Panggley, Amit Kansal

25. Hyperuricemia: Relevance in Clinical Practice
Vikram Londhey, Tarun Satija

26. Asymptomatic Hyperuricemia: Not so Benign
Renu Saigal

27. Recent Guidelines for Management of Gout
URK Rao

28. Rheumatoid Arthritis: Recent Advances and an Indian Perspective
Milind Y Nadkar, Abhinav Anand

29. Biologicals in Rheumatoid Arthritis
Gauri Liyakat Ali, Sharanbasu, Asim Khan, Ambreen Liyakat

30. Low-dose Methotrexate: A Widely Misunderstood Drug
Anand N Malaviya

31. Art and Science of Using Corticosteroids in Rheumatic Disease
Rohini Handa

32. Changing Concepts in Spondyloarthropathy
Kishore Babu, B Lakshmi Narasimha Rao, G Narasimulu

33. Evidence-based Medical Management of Osteoarthritis
RN Sarkar, K Bhattacharyya

34. Lupus Nephritis: The Current Scenario
Siddharth Jain, Uma Kumar

35. Vasculitis versus Pseudovasculitis: A Challenge to Clinicians
Arup Kumar Kundu, Anupam Maity

36. Systemic Vasculitis: An Enigma Unfolding
Aman Sharma

37. Immunoglobulin G4-related Disease: Cause or Effect?
Harvinder Luthra

38. Ocular Inflammatory Diseases: What a Physician should Know?
Yojana Gokhalo, Eesh Shukla, Akru Desai

39. Biosimilars: The Future of Biological Drugs
Praveen T fissaria, Manisha Ginde

SECTION 3

40. New Diagnostics and Screening Methods for Cancer
TVSVGK Tilak, Amit Dhiman

41. Immunological Aspects of Cancer
Jayanta Chatterjee, Sadaf Ghaem-Maghami
42. Management of Infections In Immunocompromised Patients
   Sanjeeet Dadwal
   199
43. Chronic Myeloid Leukemia: An Overview
   Hement Malhotra
   204
44. An Approach to a Solitary Pulmonary Nodule
   Madhuchanda Kar, Angira Dasgupta
   210

SECTION 4

Nephrology

45. Prevention and Management of Acute Kidney Injury in Critical Ill
   NP Singh, Anish Kumar
   219
46. Cardiorenal Syndrome: An Overview
   Ananda Bagchi, Avijit Bhattacharya, Aradhy Sekhar Bagchi
   224
47. Hypertension and the Kidney
   MK Mani
   229
48. How to Handle the CKD Epidemic in India?
   PP Varma, R Nair
   234
49. Practical Approach to Glomerular Diseases
   Ratan Jha, Kiran Chandra Patra, Shekhar Shirodhonkar
   237
50. Diabetic Kidney Disease: Indian Perspective
   Arvind Gupta, Rejeet Gupta
   243
51. Management of Hyperkalemia in Chronic Kidney Disease
   Asif Hasan, Muhammad Uvais Ashraf, Sekhar Chakravarty
   247
52. Recurrent Urinary Tract Infections In the Elderly
   Y Sathyanarayana Raju, Y Rahul
   250
53. Frontier In Nephrology: Onconephrology
   Tejas Patel
   253

SECTION 5

Hematology

54. Anemia: A Clinical Approach
   PS Ghulam, Anubha Gorg, Arvind Chahal, Varun Yadav
   261
55. Total and Differential Leukocyte Count: Changes in Disease States
   Rumma Manchanda
   265
56. Aplastic Anemia: Current Concepts in Management
   Veki Nair
   268
57. Thrombocytopenia: Rational Approach
   SV Ramanamurty, DJK Chakravarthy
   276
58. Interpretation of CBC and Thrombocytopenia with Special Reference to ITP
   Rekha Bhat, Swati Pal
   282
59. Heparin-induced Thrombocytopenia
   BL Bhardwaj, Hamoor S Bhardwaj, Kanchan Saini
   286
60. Thrombophilia: When and how to Investigate/Manage?
   Chanu Jani, Kanjaksha Ghosh
   288
61. Blood Component Therapy: Which, when and how much?
   Mathew Thomas
   294
62. Classification of RBC Disorders
   Sudhir Mehta, Shaurya Mehta
   297
SECTION 6

63. Subclinical Hypothyroidism: To Treat or Not to Treat
Ankit Shrivastav, Abhijit Swami

64. Subclinical Thyroid Disorder: To Treat or Not to Treat
DC Sharma

65. Primary Hyperparathyroidism (Indian Scenario): Trends Over Past Two Decades
Muthukrishnan J, Navneet Mittal

66. Polycystic Ovary Syndrome with Physicians
Minal Mohit, Sanjiv Maheshwari

67. Polycystic Ovarian Syndrome
Samar Banerjee, Suman Puri

68. Hyperprolactinemia: When to Suspect and How to Manage?
Piya Ballani Thakkar

69. Andropause, Prevalence and Presentation: Role of Testosterone in Clinical Practice
Rakesh Sahay, Sandeep Sharma

70. Male and Female Sexual Dysfunctions in India
Deepak Jumani, Shweta Gupta

SECTION 7

71. Constipation: Evaluation and Management
VG Mohan Prasad

72. Constipation In Clinical Practice: Causes and Management
Tejinder Singh, Praneet Wander

73. Approach to a Patient with Chronic Diarrhea
Vorun Mehta, Govind K Makuria

74. Vertigo: Clinical Approach and Management
Mohan Kameswaran, Sunil Goyal

75. Hemoptysis: Diagnostic and Therapeutic Approach
Jai Kishan Kachhlya

76. Dry Cough: Presentation, Causes and Management Algorithm
AA Mahashur, R Banka

77. Noncardiac Chest Pain
Rakesh Kalopala, Tarun Aggarwal

78. Headache in Medicine OPD
Sanjay Prakash, KRavishankar

79. A Case-based Approach to a Dizzy Patient
Salil Gupta, Deepak Goel

80. Diplopia: Clinical Approach and Management
Vivek Lal, Monika Singla

81. Insomnia: A Disorder or a Symptom?
Manvir Bhatia, Abdul Munem, BS Bai

82. Cutaneous Manifestations of Systemic Diseases: Some Spotters
Eva Tsele, Sangeeta Punjabi

83. Physical Signs in Chest Examination: Clinical Relevance in Present Day
Basanta Hazarika, Santokh Singh, Nayanjyoti Bez
INVESTIGATIONS

87. Procalcitonin Hope or Hype
   Sameer Gulati, Bhupendra Gupta

88. A Clinical Utility of Serum Galactomannan Test
   Shankha Shubhra Sen, Apu Adhikary

89. Polymerase Chain Reaction: Where is it Relevant as a Diagnostic Test?
   Gandharba Ray, L Ravi Kumar, Deepinder Chinha

90. Clinical Utility of Getting CRP done in Infections, Inflammation and Healthy High-risk Individuals
   Nitin Sinha

91. Diagnostic Value of Sputum Induction in Respiratory Disorders: Present Status, Future Course
   RS Bhatia, Rajbir Singh, Akash Batta

92. Urinary Albumin and Creatinine Ratio versus 24-hour Urinary Protein Estimation
   Vivek Kumar, Harbir S Kohli

93. Role of Tumor Markers in Clinical Practice
   Gaurav Prakash, Anupriya Kaur, Sanjay Jain

94. Fibroscan: Potential Role in Clinical Practice
   GS Lamba, Monika Jain, RM Chhabra

95. Antithyroid Peroxidase: Clinical Utility
   Hemant Thacker

96. D-dimer: Where to Send and how to Interpret?
   Sudhir Bhandari

97. Clinical Utility of Serum Ferritin
   Asha N Shah

98. Chest Radiography (X-ray and CT Scan) for Internists
   Udes Chandra Ghosh, Soma Saha, Kavita Seggar, Rajdeep Singh

99. From Basic Principles in Echocardiography to Newer Modalities
   HP Singh, AP Singh, Gursewak S Gill

100. Role of Stress ECG Testing in Diagnosis and Prognostication of Coronary Artery Disease
    SB Gupta, Sudhir Verma, Sanjman Verma

101. Role of Echocardiography for Assessment of LV Function
    Rakesh Gupta, Parth Sihapak, A Sankaranarayanan, Garima Arora

    Shravan NS Turlaga, Salma H Khan, Rohit Tandon, Navin C Nanda

103. Echocardiography in Ischemic Heart Disease: Clinical Utility
    SK Parshar, Mahmoud Elsayed, Jugal R Chahwaia, Parth K Porikh

104. Myocardial Viability Testing in Patients with IHD: Test Utility and Limitations
    Arif Wahab, Vipul N Roy, Naresh Goyal
